Subject: Compliment Letter

I am writing this letter to compliment you on the wonderful improvement and especially my child ABC of your class this year. As a class teacher, you have encouraged students to be more confident and encouraged. The students have acquired a deep interest in your subject and I am sure your teaching has played a great role in this. As ABC's mother, I am certain that your guidance has helped her to become the topper of the class this year. Not only she has shown great improvement in her academic performance, but has also shown growth the way she has been responding emotionally to everything around her. She has transformed into a mature and sensitive individual who knows how to support and put efforts while doing a task. I am so happy that my child has learned and grown so much in just one year and this all should not have been possible without your efforts. I would like to thank you and express my deepest gratitude for tapping and unleashing the inner potential in my child.

Yours Truly,

RTS
