Subject - Request for Financial Aid

Dear sir,

I am Rajat, a third-year computer science and engineering student in ABCIT. I belong to the below poverty line section of the society and that my education has been funded by the Infosys Foundation.

During the summer of 2019, I wish to take up a Python certification course offered by the college. But, I understand that I will not be able to afford the same. Therefore, I request you to grant me an aid to pursue this course.

I believe that I can successfully complete this course if given an opportunity to do so.

Thank you,

Yours Truly,  
Rajat Sharma
