

# Goodbye Letter to Ex Husband

Dear -----,

I never felt was letting go was like, until I left you and we both went our separate ways. Though it won't be wrong to say that it was a scary feeling initially, but it was also clear that the things that our relation was going through it was hard to carry on with it. People do say that it is hard to carry on with a dead marriage and it is actually true.

Now that the marriage is over it is clear that we will not be seeing each other and would be moving forward in separate ways in our life. Along with that, the plans, dreams and everything that we had in our life is destroyed and broken. But still some good memories are still alive and will live with us in our hearts forever!

Yours Lovingly,

Your Name
