Subject: Asking for a Letter of Scholarship

Respected Sir,

This letter is being written in continuation to your notice regarding scholarships from students of various colleges. I have completed my graduation from _____ College. There I had an extraordinary performance in curricular and extracurricular activities the certificates of which are being attached.

I have come to know that your organization encourages needy students like me by offering scholarships for higher education. If I am given a scholarship from your side, I hope to bring great laurels to your organization and work hard towards achieving my aim of becoming a doctor. I would be greatly obliged if you consider my credentials and grant me the necessary help.

Thanking You,

Yours Faithfully
