

Appreciation Letter to Girlfriend

Dear Snehal,

I do not know where to start from but I know that you are the best thing in the whole world that has ever happened to me. I still remember how it all started by being amazed by your drawing skills and creativity and slowly it grew into mutual admiration and then love. I miss those special years of my life when we worked together.

I know that I'm not able to give you enough time these days due to my busy schedule but I will try my best to make up for the lost time. Also, I have attached a tiny album of our photographs and selfies. Hope that it brings back some warm memories to you.

Thank you for being a strong pillar of support and love in my life. Hopefully, we will stay together like this forever.

Yours

Suraj K.
