Subject: (_____)

Dear Keegan Blair,

I, Keaton Underwood, am working as a product engineer in your reputed Rasputin Engineering Group. Last month our team had undertaken a project on constructing folding river bridges but it was stopped due to sponsorship issues.

However, we have got new sponsors now and I have enclosed their information and details in the attachments. Please have a look at them and grant us permission to restart the halted project.

I'm hoping for a quick reply and confirmation from your end. Thank you for reading this letter.

Yours sincerely,
Keaton Underwood
