

PROPOSAL LETTER FOR SERVICES

Dear Mr. Cunnings,

I, Richard Master, am writing this letter on behalf of my company Digital Arts Vaidya. We are a digital marketing agency set up in Strings TX. We offer extensive marketing and SEO services that help our clients to realize their business goals.

We have been informed that you are looking for a digital marketing company that would promote the agro-based products of your company. I would like to inform you that we have been associated with many national and international food brands in the past and we have enclosed their details in the attachment.

Our service packages start at a mere \$499 per month and that can be further extended based on the scope and requirements of your business. It includes the promotion of your products on Facebook, Instagram, LinkedIn, Twitter and also the SEO of your website or e-commerce portal. The complete details have been attached in the enclosure. Please have a look at it and do let us know what you think about our proposal.

Thanks for your valuable time and consideration.

Yours sincerely,

Richard Master
