Dear Lawrence Moreno,

It has been a great pleasure to work in your organization as an intern. In these six months, I can confidently state and I have learned a grown a lot. I honestly had not this level of expectation. But the way my senior colleagues had helped me learn new things about the techno and domain, and guided me throughout, we're really commendable.

I couldn't ask more from the projects and teammates I have worked with. Moreover, I would like to thank you for the opportunity to work in such high-quality projects and experienced members. I am sure this interspersed will help me in my future growth and I will always carry the learning in my professional life.

I wish you all the best.

Sincerely,
