

# Computer Engineering Cover Letter

To,  
Mr. Jonson Smith  
88 Third St.  
Pittsford, NY 14534

Dear Sir

I am a student of Computer Science Engineering in ABC College of Engineering, California, and I am writing you with my sincere solicitation for seeking your kind consideration of my attached application for a two month summer internship programme going to be held at your organisation.

I have also gone through the whole programme agenda and specified areas through your website and social media. With reference to that, I am looking to apply for the topic “C++ and JAVA Programing” due to my personal interests. Thanking You for your understanding and consideration.

It would be really pleasant to hear from you soon.

Yours Sincerely,

Will Hern  
Manh
