

University Admission Letter

Dear Admission In-charge,

I have been looking for a number of institutes to get myself enrolled in a graphic designing course. After having looked at many different courses I have decided to join full time regular course for 2 year in graphic designing at your place. I am very much fascinated with the faculty and technology that your University is bestowed with and that has blown away my mind. I am sure it will be a very exciting and diverse course.

I have been doing paintings and art work since a few years now but since now I want to move a step ahead and want to learn how graphics work. I have been around a few graphic designers who has inspired me to enroll myself in one such course.

I will be very much delighted if my application will get accepted by you. Here, I have attached a copy of my application along with my resume for your reference. I hope I would meet all the necessary requisites.

Thank you for your consideration. I hope to have a response from you.

Thanks a lot.

With Regards,

Your faithfully
Bruno Geller
